# Equipping a classroom or teaching lab? Check out RIGOL's education test bench!

## POWERFUL. COMPACT. AFFORDABLE.

RIGOL's series of ultra-portable instruments offer university engineering departments the ideal combination of functionality, performance, size and value. The combination of **DH0800 High-Resolution Oscilloscope**, **DG800 Pro Generator** and **DM858 Multimeter** makes for an ideal test bench for engineering students, with each instrument delivering impressive performance and touch-screen functionality in a compact and light form factor.

### DH0800 High-Resolution Oscilloscopes

- 70 MHz to 100 MHz
- 2 or 4 Analog Channels

### DG800 Pro Arbitrary Waveform Generators

- 25 MHz to 50 MHz
- 16 Bit Vertical Resolution

### DM858 Digital Multimeters

- 5.5 Digit DMM
- 7" Touch Display

Need more performance? Or different instruments?

**RIGOL's educational discount applies to our entire portfolio –**  
oscilloscopes, arbitrary waveform generators, spectrum analyzers,  
RF signal generators, multimeters, power supplies and electronic loads.
